

Phil Bailey Wins Shawnee Singles!

Saturday morning, Phil Bailey left San Angelo at 5:30 am and drove to Shawnee...about (6 hr. ride)...shoed up and for the first 7 games of qualifying, outaveraged the 2nd highest guy by 34 pins a game. He had a big lead after qualifying, but Kerry Fulford and Robert O'Meara started striking and winning matches and closed the gap to less than 100 pins. A win by Phil in the 7th game of the finals gave him a more comfortable lead. In the title

match, Phil got an early turkey and coasted to the victory. Robert shot 279 while Kerry was struggling and went around him to garner 2nd. Mike McHugh finished 4th and Charlie Hufford rounded out the top five.

Thanks to Chris Skillings and crew for hosting. The shot was fair and Fire Lake Bowl is always in good shape.

Our next tournament is a regular singles in two weeks

at Armadilla I in Pasadena, TX. The next week, we'll be at Cowtown Bowling Palace for the 70/60/50/Guest Foursome. The tournament is full. Call if you want on the waiting list or want to bowl, but don't have a team. We still have a few holes to fill. Labor Day Weekend, we'll be at University Bowl in Denton, TX for a SS Singles. It's almost full, so send in your entry so you won't get shut out.

Jim's Notes

We had six bowlers make the finals for the first time...four in their first tournament. Phil had the only 300. Seven septugenarians bowled and six got a check...two making the finals. MM and Pat Stinnett both left the Lily!

Jim's Tips: When there is an out-of-bounds present on a house shot, you must play deep enough or straight enough that missing a board or so outside won't get into the oil and leave you with an ugly spare or go in the ditch. You can play a little closer to it, if you are pointing it up or going up the boards, but not everyone has the ball speed or rev rate that allows them to do that. So, if you're playing deeper, but can't get it too far

outside, a ball with a pearl surface is not going to give you much room for error. With a shiny pearl, the breakpoint won't be as consistent as with a solid or sanded pearl with a control layout.
